MODEL OF THE NIS

A picture of a model of the future layout of the aluminum plant at Sunndalsøra. The plant is scheduled to be in full operation by the middle of 1955. One of the two large factory buildings will be ready for use in 1954. The factory area is to the left. To the right of the factory site is a row of buildings which represent the oxide installations. These are not to be built for the time being but space is being saved for them. The power station is into the mountains on the right. The power lines are shown going across to the plant.
